About AME

AME is the lead association for the mineral exploration and development industry based in British Columbia. Established in 1912, AME represents, advocates and promotes the interests of more than 6,000 members who are engaged in mineral exploration and development in BC and globally. AME encourages a safe, economically strong and environmentally responsible industry by providing clear initiatives, policies, events and tools to support its membership in delivering responsible projects that advance reconciliation and provide benefit to all British Columbians.

AME Roundup 2026 is hosted on the traditional territories of the Coast Salish people, including the x̱məθkʷəy̱əm (Musqueam), Skwxwú7mesh (Squamish) and səliłwətaʔɫ/Selilwitulh (Tsleil-Waututh) Nations.

MineralsEd is an educational organization operating in BC, that is dedicated to encouraging and supporting Earth Science, mineral resources, and mining education in schools. This teacher-industry partnership program supports teachers in their development of classroom materials related to minerals, mining, and geoscience through workshops, field trips, and other relevant learning opportunities. MineralsEd's goal is to create a well-informed public through education based on accurate and balanced minerals information and to stimulate interest in minerals industry careers. MineralsEd is a non-partisan, charitable organization.

WHEATON PRECIOUS METALS

FUTURE OF MINING CHALLENGE

The Future of Mining Challenge is a catalyst for industry-wide innovation. At Wheaton, we are committed to supporting the mining industry as a strategic partner in producing some of the world's most important commodities.

For the 2025/2026 Challenge, US\$1 million will be awarded to a cleantech venture with innovative technology that seeks to advance sustainable water management in mining.

From Silence to Safety: Creating an Effective Speak-Up Culture in Mining

Time: 11 AM - 12 PM
Location: Meeting Room 14
Presented by: Mineshift

Open to all attendees.

In mining, safety has long focused on physical risks, but cultural risks can be just as dangerous. Industry veteran Susan Lomas, P.Geo, founder of the Mine Shift Foundation, explores how silence, fear, and unchecked behaviour undermine health and safety, and how building a speak-up culture strengthens both people and performance. Attendees will leave with insights on why psychological safety is the next frontier in protecting workers and sustaining a resilient workforce.

Poster Presentations

Time: 12 PM – 1:30 PM
Location: Exhibit Hall
Sponsored by:

Join us at the Poster Presentations to see the next generation of explorers deliver short, rapid, soapbox-style talks on the innovative and applied geoscience being developed to advance future discoveries.

A safe mine is a profitable mine

Mine safety is about more than technology. Change management and data insights are important, too. Hexagon integrates systems for collision avoidance, operator alertness and vehicle intervention into your mining workflows. On top of that, we partner with customers to engage and re-engage operators in a cycle of continuous improvement.

Our solutions are OEM-agnostic, smart enough to adapt to mixed fleets and diverse sites while helping you to exceed safety and productivity standards.

The Gathering Place 2/2

Time: 1:30 PM – 4 PM

Location: Ballroom C

Session Chairs: Taryn Cutler, Seabridge Gold; Robin Sydneysmith, Hatfield Consultants

Sponsored by:

The Gathering Place is a forum for people and companies involved in mineral exploration and mine development to come together with Indigenous Nations and others to share stories and experiences about working together, overcoming differences, and building partnerships. A variety of panels and fireside chats - and this year a short film! - delve into challenges, triumphs, and lessons learned.

Ideas discussed in this session of The Gathering Place will be recorded and displayed by a graphic illustrator.
